

**AMJED AYOUB, M.S.C.S.**  
3210 East 44<sup>th</sup> Avenue J205, Spokane, WA  
Cell: 509.934.9791 Email: Amjadkayoub@gmail.com

## **Skills**

---

- Bilingual Arabic/English
- Excellent computer skills
  - Languages: C++, C#, Java, Perl
  - Database Systems and Languages: Microsoft SQL Server, Oracle, SQL, MySQL
  - Web Framework: HTML, CSS, JavaScript, ASP.NET
  - Computer Maintenance
- Exceptional customer service skills
- Highly skilled in calculus and number relationships
- Ability and willingness to learn new skills

## **Education**

---

### Master of Science in Computer Science

May 2016

*Albalqa Applied University, Asalt, Jordan*

Thesis: A Fusion-based Extraction of Key Phrases from Abstracts of Scientific Articles

The main objective of the research is to extract keywords from documents using fusion-based techniques, which are based on three other existing techniques that use a dataset for training and testing. These new techniques integrate and calculate the results of those three techniques to produce their own results of more accurate keywords than the keywords that are produced individually.

### Bachelor of Science in Computer Science

May 2012

*Jordan University of Science and Technology, Irbid, Jordan*

Graduation Project: Smart Inventory System

Customer service providers, such as restaurants, face many challenges in organizing their daily and yearly activities, some of the activities are inventory, sales, accounting and distribution. Through this project we propose to design and implement software to facilitate the management of inventory. The proposed system is a smart one in the sense that it tries to predict possible patterns in the inventory and plans accordingly, using an efficient programming language C#.

## **Experience**

---

Individual Contractor – Home Repair

July 2016 – Present

- Paint interior and exterior homes
- Operate large powered machinery and equipment such as saws, drills, pressure cleaners, and jackhammers

Dear Microsoft,

This letter is in response to the position of Software Engineer at Microsoft in Redmond, WA. I earned my Master of Science degree in Computer Science in May of 2016 from Albalqa Applied University in Amman, Jordan.

I am currently working as an individual contractor for home repairs to financially support my family. However, I am actively seeking a position in the field of computer science and dedicated to gaining experience in the field. In my spare time, I use different learning platforms such as LyndaCampus and Shaw Academy to explore and learn new technologies and stay up to date on new topics and trends. I believe that my best qualities of creativeness, positive attitude, and problem-solving skills make me the best fit for this position.

Thank you for your time and consideration. I look forward to discussing the Software Engineer position with you soon.

Sincerely,

Amjed Ayoub
